SECOND REQUEST FOR CORRECTED FILING RECEIPT

1. On June 26, 2001, the above-referenced patent application was filed with the Patent Office without a declaration.
2. On January 31, 2002, an executed declaration was filed in this case in response to a Notice to File Missing Parts mailed from the Patent Office on August 15, 2001.
3. The executed declaration filed on January 31, 2002 (see attached) named five inventors on this case: William Stutz, Arulnambi Kaliappan, Ronald Capwell, Paul Martin, and Todd Ogrin. The executed declaration was signed by all five named inventors.
4. On March 20, 2002, the Patent Office mailed a filing receipt for this case listing four inventors and omitting Ronald Capwell, who was named as an inventor on the executed declaration.
5. On April 5, 2002, the undersigned filed a Request for Corrected Filing Receipt in this case requesting a new filing receipt listing omitted inventor Ronald Capwell.
6. On April 26, 2002, the Patent Office mailed a Response to Request for Corrected Filing Receipt indicating that "A petition to correct inventorship is needed to make this change. See 37 CFR 1.48."
7. The undersigned respectfully submits that the Response was issued in error. As 37 CFR 1.48(e) indicates, "[i]f the correct inventor or inventors are not named on filing a nonprovisional application . . . the first submission of an executed oath or declaration . . . during the pendency of the application will act to correct the earlier identification of inventorship."

As stated above, the first submission of the executed declaration correctly identified all five inventors in this case. Through the Patent Office's error, one of the inventors named in the declaration was omitted from the filing receipt. Therefore, it is submitted that the correct vehicle to achieve correction of the filing receipt is a request to OIPE to issue a corrected filing receipt, as stated on the Patent Office's filing receipt form.

9. Therefore, the undersigned respectfully submits this Second Request for Corrected Filing Receipt. Attached is a copy of the official filing receipt received from the Patent Office for the above-identified application for which issuance of a corrected filing receipt is respectfully requested, with the requested change marked in red.
10. The undersigned respectfully submits that there is an error with respect to the following data, which is:

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
